Edyta Bartejczuk Wolak  
REPs Poland

Dear Edyta,

**International Portability Matrix**

Please see the table below regarding the categories of registration for Association of Fitness Professionals Pakistan (AFP) members to gain professional membership.

PD:Approval has been appointed and approved by EOSE on behalf of ICREPs to accredit all qualifications on the AFP framework, provide external quality assurance (EQA) reviews, and certification for each learner who has successfully passed their assessment.

Ben Gittus from EOSE on behalf of ICREPs has also provided confirmed their full support for the portability of AFP members to other ICREPs registers where portability is accepted

Our next step is to now complete the portability matrix for each ICREPs member country. Once this is complete it will then be uploaded to the ICREPs website providing clarity to members and registers when looking to offer recognition in their home country.

For your convenience I have created a table below highlighting the AFP categories and those that may match your country's categories. Mapping has been checked by Ben Gittus however you are also able to review the AFP standards by clicking [here](#).

Please would you sign off and date those that meet your own agreed standards. Through this process AFP will be able to provide International Portability to its members.
